The image shows a C++ IDE with a source code editor and a console window. The source code in `in.cpp` is as follows:

```
1  #include <iostream>
2  using namespace std;
3
4  int main() {
5      string name;
6      int grade;
7
8      cout << "Enter your name: ";
9      getline(cin, name);
10
11     cout << "Enter your grade: ";
12     cin >> grade;
13
14     cout << "Name: " << name << endl;
15     cout << "Grade: " << grade << endl;
16
17     return 0;
18 }
```

The console window, titled `C:\Users\HP\Documents\tasks\bin\Debug\tasks.e...`, displays the following output:

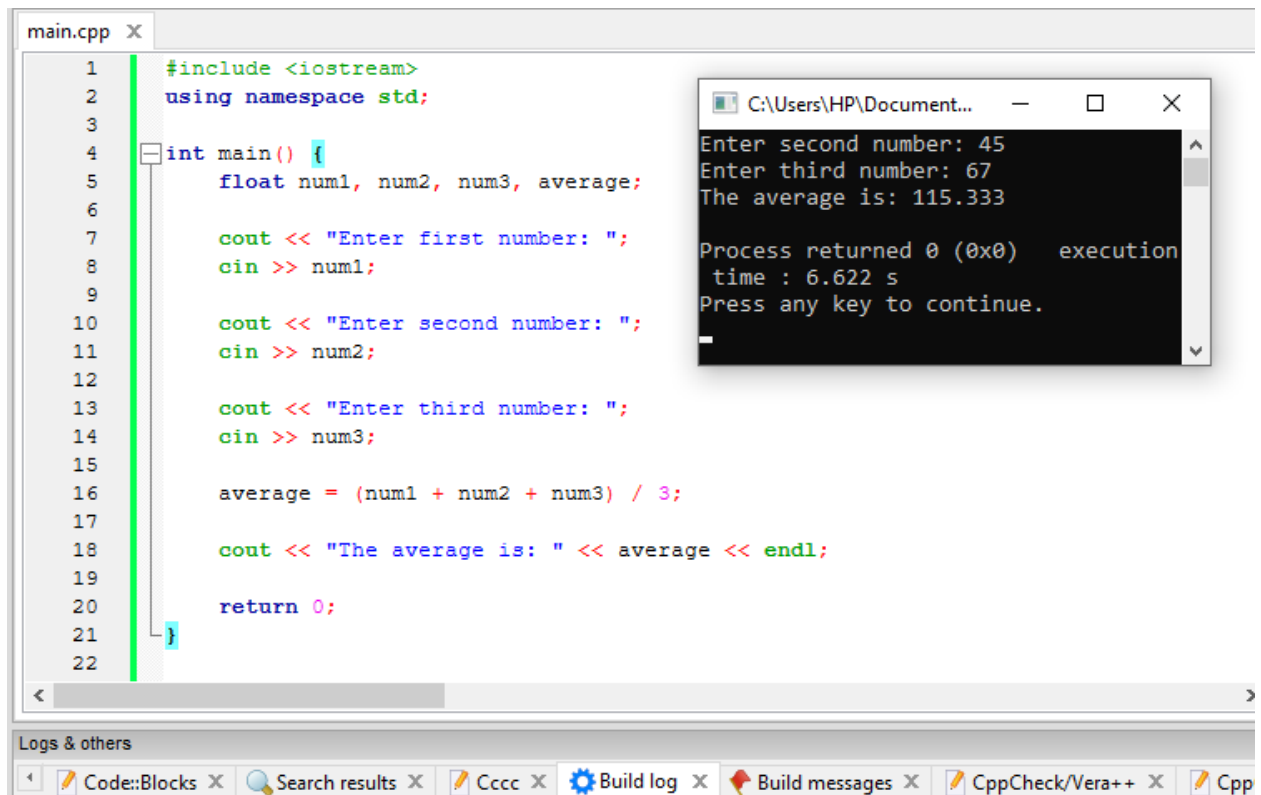

```
Enter your name: ali
Enter your grade: 20
Name: ali
Grade: 20
Process returned 0 (0x0)   execution time : 4.862 s
Press any key to continue.
```

The image shows a C++ IDE with a source code editor and a console window. The source code in `main.cpp` defines a `main` function that prompts the user for a radius, calculates the area of a circle using a constant `PI`, and displays the result. The console window shows the program's execution, including the input `20` and the output `The area of the circle is: 1256`. The process returned `0 (0x0)` with an execution time of `4.234 s`.

```
1  #include <iostream>
2  using namespace std;
3
4  int main() {
5      float radius, area;
6      const float PI = 3.14;
7
8      cout << "Enter the radius of the circle: ";
9      cin >> radius;
10
11     area = PI * radius * radius;
12
13     cout << "The area of the circle is: " << area << endl;
14
15     return 0;
16 }
```

Enter the radius of the circle: 20  
The area of the circle is: 1256  
Process returned 0 (0x0) execution time : 4.234 s  
Press any key to continue.

ain.cpp x

```

The image shows a C++ IDE with a file named `main.cpp` open. The code calculates the sum of the first 100 integers. A console window titled `C:\Users\HP\Documents\tasks\bin\Debug\tasks.exe` displays the output: `Sum of first 100 integers is: 5050`. Below the output, it states `Process returned 0 (0x0) execution time : 0.116 s` and `Press any key to continue.`

```
1  #include <iostream>
2  using namespace std;
3
4  int main() {
5      int sum = 0;
6      for (int i = 1; i <= 100; i++) {
7          sum += i;
8      }
9      cout << "Sum of first 100 integers is: " << sum << endl;
10     return 0;
11 }
12
13
14
```

Sum of first 100 integers is: 5050

Process returned 0 (0x0) execution time : 0.116 s  
Press any key to continue.
